Mistake Identification & Final Reflection	
PARTICULARS	**OBSERVATION**
Was the Original Trading Plan Followed?	I followed the plan partly, but not in all the trades.
Was an Identifiable Trading Mistake Present?	Yes, I made some mistakes in choosing the right entry and exit time.
Type of Mistake, if Any	Wrong entry and exit timing.
Evidence Supporting the Finding	Buy at $65,014 and sell at $63,775, resulting in a loss
How Did the Identified Mistake Affect the Trade	Because of the wrong timing, the trades ended with losses and affected my total result.
Could the Mistake Have Been Avoided?	Yes. I could have waited and analysed the price movement before taking the trade.

What Should Have Been Done Differently?	I should have waited for a clear signal instead of entering or exiting too quickly.
Improvement Action For Future Trades	I will check the trend and indicators properly before taking a trade.
Key Learning from the Three-Session Analysis	I learned that I should be patient and follow my trading plan.
