SESSION 26

Risk & Capital Analysis

Name: Sruthi C

Date:15-09-2026

Screenshot:

Risk & Capital Analysis	
PARTICULARS	OBSERVATION
Available Capital Before the Trade	100,008.87
Trade Value/Capital Committed	1,00,000(Approx.)
Trade Outcome	Loss
Realised Profit/Loss	+5.73
Capital Remaining After the Trade	100,005.73
Effect of the Trade on Available Capital	12.38
Was a Significant Portion of Available Capital Committed to the trade?	Yes, almost all the available capital was used.
Capital Management Observation	I used a large amount of capital for one trade, so I had less capital left to manage risk.

Key Learning from Capital Analysis	I learned that I should not use most of my capital in one trade and should keep some money aside for safety.
